

1

Hypothesis

What is your research question?
What do you think you will find out/happen?

4

Results

How will you represent your results?
E.G. tally chart/map/key/grid/graph

2

Research

Will you need equipment?
What data do you need to collect?

5

Evaluation

Analyse your data. What did you find out?

3

Method

How will you collect the data?
E.G. Tally chart/map/key/grid

Collect the data by:
Recording
Measuring
Observing

6

Conclusion

Go back to your hypothesis, what have you learnt?
Did your results match your hypothesis?
